Council To Gather Information On Sewage System

Board To Follow Up Suggestion That Crows Nest Lake Suitable As a Seaplane Base

R. G. Lillie of the Central Mortgage & Housing Corporation to be Invited by Board of Trade to Speak Here; New Officers Appointed to Executive.

An executive meeting of the Coleman Board of Trade was held in the Grand Union on Friday evening with President Percy Dickenson presiding.

Correspondence was received from a prospective tourist to this part of the country asking for maps and tourist data. Secretary Nick Nicholas was authorized to give him all information available.

A second letter was received, it being from a wholesale house in New York asking information regarding local hardware stores. Harry Boulton attended the provincial Boards of Trade at Red Deer and brought back a very good report of the provincial body's activities. Mr. Boulton was of the opinion that more resolutions should be sent from the southern part of the province to the provincial board.

A letter was received from a Mr. F. E. Glendene enquiring about the possibilities of starting a 5c to \$1 store in Coleman. The Board will answer the correspondence outlining present business conditions.

Floater chairman A. Toppano

and his committee were congratulated upon winning first prize of \$25 at the Bellevue show. As a reward they were assigned the task of decorating a second float for the Rodeo parade.

Rodeo chairman L.S. Richards reported on the Rodeo meeting of last week when all Rodeo committees were appointed. He was authorized to endeavor to bring the Cranbrook High School Girls' Band to Coleman on Rodeo day if at all possible.

Considerable discussion took place regarding the possibility of Crows Nest Lake becoming a refuelling base for seaplanes. Reference was made to the story carried in last week's Journal regarding the remarks made by the pilot to The Journal that the lake was better suited to landing large seaplanes than Waterton Lakes, the present refuelling base. It was agreed to write Queen Charlotte Airlines, Vancouver, in an attempt to follow up and give support to Pilot R. Spilsbury's remarks regarding the advantages of Crows Nest Lake.

(Continued on Page 6)

WARNING TO MOTORISTS

Numerous complaints have been received by the Royal Canadian Mounted Police and by the Office of the Attorney General with respect to the failure of drivers of motor vehicles to dim their lights when meeting oncoming traffic and also to comply with the provisions of the Vehicles and Highway Traffic Act and Regulations with respect to proper lighting equipment on their vehicles at night.

The Royal Canadian Mounted Police have been issuing warnings to motorists who have failed to comply with the provision of the Vehicles and Highway Traffic Act but these warnings in many cases have been disregarded.

In view of the dangerous condition created by a failure to strictly comply with the provisions of the Vehicles and Highway Traffic Act and Regulations with respect to the dimming of headlights and the prevalence of faulty lighting equipment on cars, it is now proposed that no further warnings be issued and if any person is found travelling on the highway in contravention of the provisions of the Vehicles and Highway Traffic Act and Regulations, a prosecution will be entered against the driver without further warning.

R. G. Lillie To Address Public Meeting

Public Invited to Attend Meeting to Hear Address on Housing; Meeting Tonight at 8 p.m. in Grand Union Banquet Room.

Coleman Board of Trade has received confirmation of the attendance at a public meeting of Mr. R. G. Lillie, of the Central Mortgage & Housing Association, to speak on the problems of housings and how aid can be secured for the prospective home builder.

Board president Percy Dickenson has arranged to hold a public meeting Thursday (tonight) in the banquet room of the Grand Union hotel and invites all citizens interested in the problem of housing to attend. The meeting will start at 8 p.m.

Mr. Lillie will be the guest of the Board of Trade at a supper prior to the meeting at which time he will be introduced to the executive members of the Board and the Mayor and his councillors. Officials of the mining companies will also be in attendance and will have the opportunity of meeting the guest speaker.

WALTER NELSON BEREAVED

The death occurred on Sunday, June 6, of Mrs. J. D. Mills, 76, of Kipling, Saskatchewan, sister of Mr. Walter Nelson.

Mr. Nelson travelled to Kipling to attend the funeral. It is over twenty years since deceased last visited Coleman and is not known locally to anyone outside the immediate family. While in Saskatchewan Mr. Nelson took the opportunity of visiting old friends, several of whom attended the same schools as himself.

MRS. ALICE BUCKNA'S STUDENTS PASS MUSICAL EXAMINATIONS

Following are the results of the recent musical examinations in which the pupils of Mrs. Alice Buckna took part.

Grade IV Theory: Honors, Juliette Ledoux; First class honors, Pat Naylor and Geraldine Kemp, Blairmore.

Grade II Theory: First class honors, Lenore Dutil and Shirley Wood. Honors, Frank Oliva and Laura Owen.

RONALD COLAGROSSO WITH KITSILANO BOYS' BAND

The Vancouver Kitsilano Boys' Band is making a goodwill tour of British Columbia and southern Alberta as far north as Calgary within the next few weeks. Stop overs will be made at Lethbridge, Macleod, Kimberley and Cranbrook where they will play in the Stampede parades of the former two towns. Of interest to Colemanites is the fact that Ronald Colagrosso, former Coleman youngster, will be a member of the band. According to The Journal's information received from Vancouver, Ronald is quite thrilled at the thought of visiting the Pass. The band will have 2 special coaches attached to the regular train.

School Board In Favor Of Sewage System

Will Give Financial Aid In An Effort to Advance Start of Project.

At a special meeting of Coleman School Board last Thursday evening the subject of a sewage system came up for discussion. Chairman George Evans stated that council was scheduled to deal with the subject of sewage at the next regular meeting and he desired that the Board be re-presented.

Works & Property committee reported that two tenders had been received to construct a septic tank and that considerable work would have to be undertaken to keep present cesspools in proper condition.

Chairman Evans stated that he understood that the hotels were keenly interested in the sewage system and that they were prepared to absorb a portion of the cost in order that the work be started as quickly as possible.

It was unanimously agreed that the Board would also contribute financially to a specific sum in order that a sewage system be constructed and that the schools would have the benefit of the use of the system.

Chairman Evans and Trustees Holly and Bomben voiced their intention of attending the council meeting.

Editor's Note: In an effort to follow up the Board's deliberations The Journal contacted a local hotel on Monday morning but the manager stated he had no knowledge of the talks which are supposedly taking place regarding a sewage system. He stated that some years ago his hotel had offered financial assistance but that the offer was now void owing to the time which had elapsed since the offer was made up to the present time.

Coleman School Board Advocates Adoption of Plan for Main and Second Streets; Offered Council \$5,000 Grant Towards Project

Stricter Supervision to be Made at Town's Nuisance Ground; Speeders and Reckless Drivers Within Town to be Prosecuted.

The regular meeting of the council was held on Tuesday evening. Present, Mayor F. Aboussafy, Councillors Jenkins, Ramsay and Wood.

Mr. F. DeCecco was present to ask the council that should the court of revision be held after the August 18 10% rebate deadline on taxes, would he still be eligible for the rebate if he launched an appeal against his assessment and withheld tax payment until his appeal was heard. Council advised that he pay his taxes forthwith and should there be an adjustment in his taxes it could take place following the decision of the court of appeal.

E. Fabro, speaking on behalf of Mrs. Joe DeCecco, asked council to inspect the portion of the concrete wall still remaining alongside the Nez Perce creek. It appears that there is a burst pipe in the vicinity and it may be causing the undermining of the wall. Works and Property committee was authorized to inspect the wall and report back its findings.

Mr. Fabro warned against the danger of an open concrete culvert pipe on fourth street. He stated that should some small youngster crawl into the pipe serious consequences could result. He advocated the placing of a grate at the culvert's entrance and received the council's assurance that a grate would be placed there immediately.

Due to the absence of Councillor W. Dutil who was in possession of a letter which was to have been presented to council regarding the difficult-

ty experienced by the coal delivery truck in delivering coal in the winter time to Mrs. M. E. Cornett's main street property, council was unable to deal with the subject. Mrs. Cornett was present and expressed regret that the letter had failed to be presented. She told council of last year's experience and suggested that cribbing be built and filled in so that a truck could back in to the coal chute without danger.

Nuisance ground inspector Steve Bettinger was present and protested vigorously against the practice of butchers' truck drivers coming to the dump with spoiled meat and leaving it without the formality of burying it in the interests of sanitation. In protesting to the drivers he had received much abuse. He also protested against the use of the nuisance ground road as a public highway and against youths going through it on the pretext that they were going to visit the Wm. Jenkins residence only to start firing rifles and setting boxes in the dump in order to have the resultant danger of a bush fire.

Council called Police Chief Antle into the discussion and asked him to give those guilty of leaving spoiled meat on the dump one more warning and upon further offence to prosecute. The nuisance ground gate is to be padlocked and the keys given to Mr. Bettinger. Youths are to be warned against the danger of fire in the nuisance ground. Due to the fire hazard when

(Continued on Page 7)

PLASTERERS NOW AT WORK ON MUNICIPAL HOSPITAL

A gang of plasterers from Calgary started their work at the Municipal hospital on Monday and additional plasterers were scheduled to arrive Tuesday morning. Stucco on the outside of the building will be done first.

The bricklayers have finished their job and it was through this crew of men that the hospital started to take shape. They came from Saskatoon and proved that they know how to lay bricks efficiently and quickly. Purnell theatres thought so much of their work that the management engaged the contractor to do the brickwork on the new Palace theatre.

Constant rain has prevented the concrete roof slab drying off sufficiently to lay the sealing material on the roof. Three times men have come down from Calgary to complete this job and each time they have been prevented from doing so by rain.

The elevator should be installed quite soon as workmen have been engaged on this big job for the past three weeks. The dumbwaiter is installed and will be tested as soon as the electricity is installed in the building. This latter job awaits completion of the plastering.

Accident Brings \$22,200 Action

Father Maurice LaFrance, Roman Catholic priest at the Sacred Heart Indian School Brocket, Alberta, Nicholas J. Nicholas and James F. Wilkie of Coleman were named defendants in a \$22,200 statement of claim filed at the court house Monday by John Alexander McDonald, Coleman school teacher.

The claim arose out of an accident two miles east of Monarch on the Lethbridge-Macleod highway June 19, 1947, when the car driven by Father LaFrance collided with one operated by Wilkie and owned by Nicholas. McDonald, a passenger in Wilkie's automobile, received extensive body injuries.

He claims the accident was due to the sole negligence of the two car operators, who were driving in an unsafe and improper manner.

McDonald is claiming \$20,000 general damages and \$2,200 special damages. Act as counsel for the plaintiff is the law firm of McLeod, Riley and McDermid.

Coleman To Aid B.C. Flood Victims

Lions Club To Sponsor Tag Day Next Saturday; Local Support Sought By B.C. Lions Club.

During the past month many citizens have been overheard expressing sympathy for the victims of British Columbia's disastrous floods. On Saturday they will be given the opportunity of expressing that sympathy in more tangible form as the local Lions club has responded to an appeal from British Columbia to subscribe to the B.C. Emergency Fund by means of a tag day Council at its meeting Tuesday evening sanctioned the tag day.

Following is the appeal received from the Maple Ridge Lions Club at Haney, B.C.: Brother Lions:

Disaster has struck the Fraser Valley of British Columbia. The Fraser River is on a flood rampage and today much of the finest farming area is inundated. Countless acres are submerged in varying depths up to twenty feet, towns are flooded, thousands evacuated from their homes, personal belongings and furnishings lost and crops destroyed. Desolation is now the picture of this area which a few weeks ago held so much. In many instances the work of a lifetime has been wiped out and years of toil has been rendered useless. And the crisis is not yet passed. The flood condition is to be regarded as a National Disaster and many millions of dollars will be needed for rehabilitation work.

The Maple Ridge Lions Club is one of a few functioning in this valley, and its members are doing splendid work, night and day, in this time of emergency. We are situated in practically the last remaining district where the dykes are still holding, and we hope and hope that the area will escape disaster. With a membership of 56, today we subscribed \$1000.00 to the B.C. Flood Emergency Fund.

We are taking the Liberty of Inviting all Lions Clubs of Canada to make a donation to this worthy cause. Cheques to be made payable to the B.C. Flood Emergency Fund, in care of Maple Ridge Lions Club, Haney, B.C.

Maple Ridge Lions Club, W. Cluppison, President.

Lion President Horace Allen appeals to all Coleman citizens to give support to this most worthy charity and help aid in small degree to the titanic task of rehabilitating those unfortunate people who watched their life's work wiped out within a few minutes.

Each person determines the amount of his own donation but be sure and buy a tag.

LOCAL TEACHERS TO ATTEND UNIVERSITY SUMMER SCHOOL

Several of the local teachers plan on leaving at the end of the month for Edmonton where they will take part in the Alberta university summer school.

Mr. Jim Cousins will be endeavoring to secure his M.A. degree this year while Mr. Steve Ondrus will write examinations for his B.Sc. degree and Mrs. Ondrus her B.Ed. degree.

Vice-principal Horace Allen and Miss Aline Mercier will attend and put in another year towards their respective goals.

Wm. Witwicki Laid To Rest Here

Funeral services for the late William Witwicki, age 23, who was killed in a mine accident at Coleman on June 16, were held in Martin Brothers' Funeral Chapel at 2 p.m. on Saturday, June 19, with a large number of friends and relatives present. Rev. N. W. Whitmore officiated at the service, and interment followed in Mountain View cemetery.

Palbearers were F. Morris, W. Huculak, N. Martinuk, K. Sorooski, H. Turbiaz and A. Langyeil.

Many floral tributes were sent in his memory.

Mr. Jim Shields is confined to his home due to illness.

A Welcome For New Citizens

IT IS ESTIMATED THAT in the three years since the war ended, some 200,000 people from other lands have come to make their homes in Canada. The majority of them have come from Europe and many have endured years of hardship and suffering before coming here. Undoubtedly to all of them, the opportunity to come to Canada meant a chance to make a new life under better and happier conditions than those under which they had been living. Some, through contacts with Canadian soldiers during the fighting in Europe, or through other channels, had gained considerable knowledge of this country and were anxious, because of what they had learned, to establish themselves here. Others have come only because they were seeking a new home, and had less previous knowledge of conditions in Canada.

Relationship Of Mutual Benefit

In this connection the Canadian Citizenship Committee has suggested that more interest should be taken by the public in making these newcomers feel at home in Canada, and in helping them to become acquainted with our way of life. It has been proposed that each new immigrant should be placed in contact with an older Canadian citizen, who could instruct him concerning our electoral laws, social customs and similar matters, and assist him to form connections with the religious denomination of his choice, as well as with other organizations in which he might be interested. Such a plan should prove of advantage to the new citizens, who have many adjustments to make in coming to a strange country. Likewise, Canadians who might undertake to assist these people, would undoubtedly gain much from the experience.

Become Familiar With Our Ways

In the past little interest was taken in quickly assimilating those who immigrated to this country into the Canadian way of life. Many of them remained in national groups in the communities in which they lived, and clung to their own language and customs. Their children and grandchildren have become Canadians in every sense of the word and have contributed a great deal to the progress of this country. However, there is no reason why the first generation of citizens of foreign origin should not enjoy their new citizenship to the utmost. In this, as in many other things, it is possible to improve on the methods used in the past, and it would be well if serious consideration were given to the manner in which newcomers from other lands might be helped to learn to enjoy the privileges and fulfill the responsibilities of Canadian citizenship.

The Quality Tea "SALADA" ORANGE PEKOE

Higher Priced Eggs For Britain

An increase of five cents per dozen in the price to be paid for Grade A eggs purchased under the British contract was announced by the Special Products Board. A further two-cent increase will become effective September 1, 1948.

The increase in price during July and August has been made possible by economies effected in the operation of the British egg contract by the Special Products Board over the past year. It will not involve any increase in the contract price of eggs to Britain.

The September increase will bring Special Products Board paying prices for eggs to the regular fall period premium price provided by the British contract.

DOES INDIGESTION WALLOP YOU BELOW THE BELT?

Help Your Digestion "28" For The Kind Of Relief That Helps Make You Run To Go. More than half of your digestion is done below the belt—in your 28 feet of bowels. So when indigestion strikes, try something else—helps digestion in the stomach AND below the belt. What you may need is Carter's Little Liver Pills to give needed help to that "Tongueless 28" of bowels. Use one Carter's Little Liver Pill before and after meals. Take them according to directions. They help wake up a better flow of bile I mean digestive juices in your stomach AND bowels—help you digest what you have eaten in Nature's own way. You can't feel the lack of relief that makes you feel better from your liver in your bowels. Be sure you get the genuine Carter's Little Liver Pills from your druggist—see.

Bigger and better VEGETABLES

Protect them with Green Cross Garden Guard, which contains 50% more potent than ordinary dorrin dust. Deadly to insects, but non-poisonous to humans, it is especially suitable for vegetables. It is, in fact, a handy pump gun.

ROTONONE
Green Cross GARDEN GUARD
(Derris Dust)

Fashions

You'll Adore It
By ANNE ADAMS

Mad about that whirl-shirl! Crazy about that rusty-bustly pelum too! Both give you a Figure—tiny waist, hip interest. In fact Pattern 4707 is a little lovely for a gay summer. What's more, it's simplest sewing! This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions. Pattern 4707 in Jr. Miss sizes 11, 13, 15, 17. Size 13, 34 yds. 39-in. Send twenty-five cents (25c) in coins (stamps cannot be accepted) for this pattern. Write plainly size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 170 McDermot Ave. E., Winnipeg, Man.

DANGEROUS BUMP

Mrs. Georgie Booker, who lives in Georgia, said she thought her rocking chair on the front porch seemed "a little bumpy." The next morning she found that the rockers had crashed a six-foot rattlesnake to death.

GRAND BODY FOUND

Searchers found the body of Norman Henry Locke, 14 years old, beside the boy's pony, who stood all night in a flooding creek at the spot where the boy fell off into the water. 2782

RAGING FRASER RIVER—The above scene shows the Fraser River which flooded farm lands in the Chilliwack and other B.C. areas. Here a bull is forced to swim after rescuers' boat through water 15 feet deep.

Western Briefs

BANFF, Alta.—Present high price of autos, furniture and household appliances will be brought down by buyers' resistance and the heavy tax structure, delegates attending the international credit conference predicted.

KELOWNA, B.C.—Final shipment of the 7,000,000 box apple crop produced last year left the Okanagan Valley recently. A. K. Loyd, general manager of B.C. Tree Fruits, announced. Total shipments for the past season amounted to 13,754 cars, compared with 16,121 the previous year, and 10,952 in 1946.

VANCOUVER, B.C.—City Council approved application of Pacific National Exhibition to place three advance ticket booths and park three automobiles to be given away as prizes on city streets.

EDMONTON.—Alberta's \$13,500,000 highway construction development program for 1948 is under way, the public works department announced, with crews out on 45 projects.

ENDEAVOUR, Sask.—A happy bridal couple stopped at Endeavour en route by tractor for a campers' honeymoon at McBride lake. The couple were Mr. and Mrs. John Wilkinson. They were married by Rev. E. Wright at Sturgis. After the ceremony they changed to camping togs and set out by tractor for McBride lake. The tractor pulled a small trailer carrying their camping equipment.

KAMSACK, Sask.—W. B. Cass, postmaster in this eastern Saskatchewan town, began charging 10 cents each time he had to open postoffice boxes for people who had forgotten their keys. He recently turned over \$16.50 in "fines" to the Canadian Appeal for Children.

EDMONTON.—Ontario has asked for 2,500 western farm workers to help harvest her early crops, the Alberta government announced. Workers volunteering must undertake to return to Alberta between Aug. 23 to 31. Fares are \$10 each way and the age limits are 16 to 30.

Fine particles of broken glass can be picked up with damp cotton, which will protect fingers from tiny cuts.

Skin Eruptions

Here is a clean, stainless, penetrating antiseptic that relieves itching, soothes the skin and promotes healing. It is a true skin restorer. Not only does this healing antiseptic oil promote rapid and healthy healing in open sores and wounds but it also soothes and relieves the skin. In skin ailments the itching of Eczema is quickly stopped. Pruritus—skin eruptions dry up and scale off in a few days. The same is true of Dermatitis, Psoriasis, Itching, Tinea and feet and other skin ailments. You can obtain Mose's Eczema Oil in the original bottle at any modern drug store. Satisfaction or money back.

THE TILLERS

FUNNY And OTHERWISE

"I'm sorry, madam," said the passport official, "but there has been a mistake made in your application form."

"What is that?" she asked. "The color of your hair has been put down as dark instead of fair."

"Oh," she said, with an obliging smile, "will you alter it, or shall I?"

"Doctor," stammered the ex-salor, "I... I... I'm going to marry Mary Smith, and..."

"Splendid, my boy," effused the old family doctor. "Congratulations." "But there's something I have to get off my chest."

"Don't let it trouble you, Son. Just tell me all about it."

"Well, it's a red and blue thing with the name, Mabel, on it."

A teacher was lecturing on charity. "Fred," he said, "if I saw a boy beating a donkey and I made him stop, what virtue would I be showing?"

Fred (promptly): "Brotherly love."

"Do you really love me, Alfred?" asked the girl. "Oh, I refer you to my last letter," replied the young man.

"Devotedly" is on the first page, "madly" on pages four and five, and "ill death do us part" in the postscript. It cannot be more explicit, Echele!

Chaplain—How could you have the heart to swindle people who trusted you?

Prisoner—But, Parson, people who don't trust you can't be swindled.

"Frank said last night that I was a perfect enigma to him. Now, what do you think he meant?" "Helen, Oh, one of those stupid things that anyone can see through."

Doctors' Salaries Up 60 Per Cent.

OTTAWA. Salaries of Canadian doctors leaped 60 per cent. from 1929 to 1945. The figures came from the Bureau of Statistics, which released results of a survey showing the average Canadian doctor made \$3,900 in 1929 and \$6,200 in 1945.

Rummy is voted the most popular card game.

Conservation Of Soil Major Importance

With Plenty Of Data On Soil Prospects For The Farmer Is Good

JASPER, Alta.—The predicted future of agriculture on both sides of the Canadian Rockies was described to delegates attending the third annual convention of the Canadian Food Manufacturers' association here.

Dr. R. D. Sinclair, dean of agriculture at the University of Alberta, said soil conservation is of major importance to prairie farmers.

Professor H. M. King of the University of British Columbia's animal husbandry department, said his province's problem is to obtain more intensive production from the limited number of arable acres suitable for farming.

Prospects for today's farmers were described as good by Dr. Sinclair, with plenty of data available for study on soil and climatic conditions. British Columbia's need for increased production, Professor King said, is being met through intensive fertilization, irrigation and rotation of crops.

Huge Dyking System Foreseen For Fraser Valley

OTTAWA.—High dykes for 140 miles costing \$62,500,000 in Fraser Valley are envisioned here as plans are mapped out for Dominion-Provincial flood control measures.

An unofficial estimate says the Federal government may put up \$50,000,000 and B.C. \$12,500,000. Proposed dykes would be high and strong enough to contain the Fraser at peak flood levels.

According to one source, the dykes might be wide enough to carry 16-foot roads, similar to barriers in Holland and the lower Rhine along which Canadian soldiers fought in World War II.

LOTS FOR MONEY

The motorist probably gets more for his money when he buys tires than anyone else. Tire manufacturers estimate customers get about 1,700 miles per dollar spent on tires.

BE A HAIRDRESSER

Ladies learn more money—learn hairdressing: a profession offering unlimited opportunities. We positively guarantee complete, thorough training under direct supervision of nationally known instructors. Easy pay as you learn plan. Write or call for complete details and illustrated booklet.

HOW OUR PRARIE TOWNS AND VILLAGES CAME INTO BEING

By JANE DALE

PEOPLE living all their lives in the cities and in the older parts of our country must often wonder just how the many little towns which dot the prairies came into being. There is a romance and an inspiration in the individual history of each of the prairie towns and villages and as we listen to the pioneers and the old-timers tell tales of the first days of these stopping off places along the long prairie trails we come to realize that each small settlement started much the same as the other. I have had occasion to delve into the background and history of the small village of Hamiota, Manitoba, for material for a project which our Women's Institute is sponsoring. With all the material at hand I decided to write up a brief summary of this town's history and thereby answer the question as to how the small prairie villages and towns came into being.

During the latter part of the nineteenth century the government of Canada sought to lead settlers into the prairie provinces by the means of extensive and somewhat misleading advertising. In the British Isles and in the various countries of Europe the Canadian west was depicted as a land of vast opportunity and abounding wealth for those willing to settle the land and work. People flocked to this paradise from across the seas and from the eastern provinces of Canada itself. Between 1870 and 1900 the Indian trails across the prairies were dotted with all sorts of vehicles—ox carts, lumber wagons, covered wagons and Red River carts. Winnipeg was the central point and the settlers fanned out from there, going as far as they could by rail then employing whatever sort of transportation they could afford or obtain. Wherever a small group or family could make out a homestead there a settlement usually started.

A family by the name of Hamilton stopped along the trail some thirty miles from Bartle, where homestead locations had to be registered, to the northwest; thirty miles from Rapid City, the nearest postoffice at that time, to the southeast; and fifty miles from Brandon, the heart of the wheat growing area, also to the northwest. This family of settlers gave their name to that stopping place but when they began to receive mail it was found that the mail had been sent to the city of Hamilton, Ontario, was being confused with the mail for the Manitoba Hamilton it was found necessary to change it. The first available of the original name and the Indian word, "iota", meaning plenty, were combined, the whole word then becoming "many Hamilton trees". So Hamiota it was and Hamiota it has remained ever since.

The present village of Hamiota is three and a half miles northwest of the original Hamilton homestead. The townsite was laid out in 1880 but the town was not incorporated until the year 1906. The year the townsite was laid out the Great Northwest Central Railway from Chatter, a small settlement west of Brandon, was laid to Hamiota. The hope of having communication with the outside world was met with enthusiasm by the people who had already gathered in the small place. There was a period of waiting, however, during which pressure was put on the government by petition to get the train running. It was in December, 1881, that the train did finally come snorting and shrieking along the ribbons of steel. That was a milestone in the life of the village. Mr. George Elliott had a cellar for his store dug for two years but when the train came he decided to go no further with the construction. When in August, 1881, a hand car came along the track he thought it was the forerunner of the train so set his men to work again. Once more he was disappointed and the work was held up. When on that cold dull December day the train did come through, Mr. Elliott had his place cleared of snow and ice, laid a floor on the foundation which served as a roof and in the basement opened

the first ice carnival held in Hamiota was a very pleasant affair. There were no electric lights, not even gaslight; so each man took along a stable lantern, the light of which gave to the whole scene of the carnival a festive appearance and every one participating had a merry time.

Another special event often recalled by oldtimers of the district and which afforded much pleasure to everyone was the first big celebration in the village. This took place on Dominion Day, 1892, when a special train from Brandon for the occasion. There was a great move to improve the appearance of the very young settlement for this great day. The citizens arranged to lay sidewalks, each man buying his own lumber and doing the labor. The sidewalks were for the most part two boards set lengthways about a foot apart. Much later, in fact after the town became incorporated these were replaced by solid plank sidewalks. This work went on steadily all night in order to be ready for the celebration. During the following day the local team won a victory over a visiting team from Rapid City in a game of lacrosse.

Little towns like Hamiota owed their very existence to the homesteaders around about. This community proved to be set in the midst of a rich grain growing prairie of the Prairies. During the depression years the late Cora Hind remarked in one of her reports on the rural grain growing areas that Hamiota was the garden spot of Manitoba. Even those devastating years of drought and pestilence did little to set back the settlers. Their crops increased and they, in the main, prospered. Before the coming of the train, as mentioned above, the farmers in the settlement had to haul their grain thirty or forty miles to a market.

A great day it was in the lives of the townspeople when the train brought the mail to within a stone's throw of a postoffice; this step by step the town grew. Grain elevators arose above the frame houses, every barn was erected to accommodate the horses of the farmers and the traveller, hotel and boarding houses opened their doors as the need arose; a town paper came into being and became the voice of the people and a system of gaslighting was installed which was replaced by electric lighting in the 1920's. A hospital was found necessary to adequately take care of the sick and the one roomed school gave way to a four roomed brick structure which was again enlarged to accommodate children from a wider area. All sorts of offices and places of business sprang up along the main street. The pattern of development is one with all other patterns on the prairies. The only difference is that while in and around Hamiota names such as McColl, Fraser, Chamberlain, Park, Whyte, Venables and many others will be remembered as long as the town itself stands, in other towns the names will be different.

No better measure of the town's greatness can be had than by the type of citizen it has sent out into the world as the years pass away. Hamiota, as all other prairie towns, has sent a good quota of intelligent, loyal and upright men and women into all parts of the world and has at the same time retained not a few to carry on the work so laboriously started by the pioneers in a community so well favored by nature and God.

MAKING PIE COULD HAVE BEEN EXPENSIVE

HAGERSTOWN, Md.—A few more minutes in the oven and Mrs. Ralph Saladin's pie would have cost \$125.

She noted a peculiar smell coming from the oven and found \$125 in bills—done to a brown, but not charred.

Her husband said he had placed it there for safekeeping, and then forgot to tell Mrs. Saladin.

The safety match came into use about the middle of the 19th century.

ANSWER: Florida has about twice as much average rainfall as California.

POINTING OUT THE FEATURES of a hog carcass which will place it in Grade A, Hector Ford, livestock grader for the Dominion Department of Agriculture, holds the keen attention of junior suite club members from several clubs in Fraser Valley, B.C., in one of the events of the field day at the University of British Columbia.

IS IT A BUS OR A TRUCK?

ELLENDALE, N.D.—A summer vacation for a family of 16 here is being delayed over the question, "Is it a bus or a truck?"

John Bell thought he had his family's transportation problem solved. He mounted a bus body on a truck chassis. Even at that, the 25-passenger bus was none too roomy for the 14 children and their parents.

Two applications have been made

for a truck license. Both have been turned down. Bell admits it looks like a bus, but says it's still the family car.

However, a bus permit would cost \$32 and the cost of the license would have to be figured over that. A North Dakota law says a bus must be licensed as such and not as a truck.

A rumor around Ellendale had it that the vehicle registration department at Bismarck denied Bell's application for another reason. The department was said to believe that he wanted to enter the commercial bus business.

His answer to that: "When we Bells go for a ride there wouldn't be any space left. I need a bus just to take the family for a joy-ride."

There are four sets of twins in the family. Married in 1924, the Bells have had 16 children, but one died shortly after birth and another was killed in a tractor accident four years ago.

CLAMS FOUND INLAND

MINOT, N.D.—Only 45 miles from the geographical centre of North America and thousands of miles from any ocean, clam shells measuring four and five inches in length were found by wild diggers at a depth of 50 feet here.

COURSE OF RIVER HAS BEEN ALTERED BY ENGINEERS

LETHBRIDGE, Alta.—A river has changed its course and irrigation canals a strip of river to south-western Alberta when engineers tore out a section of a St. Mary river dyke 30 miles southwest of Lethbridge and removed an oblong from the river's course.

Instead of making a 12-mile bend at the site of the St. Mary-Milk river water development operation, the waters take a 4-mile shorter route. The tunnel was begun in October, 1946.

The change enabled engineers to begin work on the key part of the \$20,000,000 project designed to irrigate 512,000 acres of fertile farmlands—the St. Mary River dam, which will be one of the largest in Canada.

Two hundred feet high, a quarter-mile long at the base and half a mile long at the crest, it will be of hard rolled clay.

The water will be contained in a reservoir 200 feet deep, 6½ miles wide and 16 miles long.

HARD ON NEWSBOYS

PEIPING: The municipal government placed a gag on newsboys. Authorities complained the newsboys, in crying their wares, exaggerated the headlines. Now this makes a jittery population that much more nervous, the city told the newsboys to quit shouting.

Early spokes were sometimes only a chip or a splinter of wood.

WORLD HAPPENINGS BRIEFLY TOLD

The first aluminum ship built in Britain, an experimental motor torpedo boat was launched recently.

A flint arrowhead, believed dating from about 1,500 B.C. was found at Fairlight, near Hastings, England.

C. Johnson, chief purser of the liner Queen Mary, is to retire. He has served in 37 Cunard ships.

Inhabitants of Costessey, Norfolk, England, have been advised to "go on living" until £1,225 (\$4,000) is available to extend the cemetery.

Three generations of a family, the oldest 73 and youngest 11, have left England on a one-way trip to Sydney, Australia, to start a new life.

A women's choir, its members ranging in age from 65 to 82, sang for Princess Elizabeth when she visited Cardiff.

The official gazette fixed Sept. 4 as the date for the abdication of Queen Wilhelmina and the assumption of the throne by Princess Juliana.

German prisoners of war, married to British girls, will no longer be repatriated against their wishes until their cases have been specially considered, the War Office announced.

India has ordered 100 locomotives worth \$13,000,000 from companies in Montreal and Kingston, Ont. It was announced by an Indian information services official.

Weekly Tip

STIFF OLD PAINT BRUSHES

Stiff paint brushes will become soft and pliable again if put in an old can with enough vinegar to cover the brushes. Boil this for about 15 minutes.

a word about Personal Purchases in the U.S.

● If you are contemplating a trip to the United States, here are two important facts to remember:

● You may not bring back with you any merchandise which is prohibited under the Emergency Exchange Conservation Act. Find out in advance from Canadian Customs officials whether you may bring in any contemplated purchase.

● To conserve all available U.S. dollars for essential purchases, a travel ration of \$150 U.S. per person for the 12 months between Nov. 15, 1947 and Nov. 15, 1948 has been established. Be sure to get the necessary forms and details at your bank, well in advance of your trip.

This caution is given to help avoid possible embarrassment at border points.

NOTES AND COMMENTS

It's A Disgrace

At one end of the Alberta side of the Pass we have a Board of Trade agitating for clean scenic highways. At the other end we have a community which has created a nuisance ground right on the edge of the main highway. The present condition of our highway is sufficient to cause tourists to turn around and go home in disgust but the establishing of a nuisance ground on the side of the highway is adding insult to injury.

We do not know who is to blame for permitting the dumping of refuse along the highway. Investigation brought us the information that the Highways Department was strongly opposed and desired the nuisance ground at least a mile from the highway. The Department of Health, which supervises sanitation, would appear to have permitted creation of this "dump" and the decision must have met the approval of the citizens of Bellevue from whom no protest has been heard.

If we are to take pride in the scenic beauty of the Crows Nest Pass the existence of a nuisance ground at the very edge of the highway cannot be allowed. Here is an opportunity where the Coleman and Blairmore Boards of Trade can work in conjunction, with the support of community minded citizens of Bellevue, to have the nuisance ground moved to a spot much less conspicuous than the present one.

SUPPORT THE TAG DAY

Today British Columbia has the sympathy of a vast majority of Canadians in its loss through floods of human life, livestock, property damage, destruction of land and human misery to many thousands of its citizens in both the Kootenays and the Fraser Valley. Flood waters are now receding, the titanic task of rehabilitation is about to begin.

Throughout the Dominion funds are being created with which to help rehabilitate these unfortunate people. Here in Coleman a tag day will be sponsored on Saturday. Support it well and help in small part to relieve the suffering of B.C.'s unfortunate flood victims.

A SEWAGE SYSTEM

At long last definite steps are to be taken to probe the feasibility of main and second streets being serviced with a sewage system.

The business section of the town has long past the stage when a cesspool in the back yard sufficed for hotel or small businessplace. The town has grown, more children are attending our schools, hotels are busier, main street is busier.

The schools and hotels particularly have been plagued with an outmoded system of sanitation and have spent many hundreds of dollars in vain effort to secure a sanitation system that would prove adequate for their requirements. Sanitary engineers from Edmonton have advocated the sewage system as a permanent solution and occasionally the subject would be discussed at council meetings but with no concrete results.

A few years ago ex provincial sanitary engineer Menzies estimated the cost of the system for main and second streets would be \$10,000. Today that figure can be boosted to \$15,000 or \$20,000. Should the money be available for a sewage system it should most definitely be established as the town urgently requires such sanitation and as time goes by the system can be extended throughout the community.

New C. P. R. Executives

HEAD C.P.R. BROTHERHOOD: Executive of the Brotherhood of Maintenance of Way Employees of the Canadian Pacific Railway for the next three years is shown above following their election at a meeting at the Chateau Frontenac in Quebec. The next general meeting of the organization will be held at Vancouver in August, 1948. Left to right, sitting: A. C. Mykle, Winnipeg, assistant general chairman for western lines; W. Donnelly, Ottawa, secretary-treasurer; J. J. O'Grady, Ottawa, vice-president; S. Burns, Toronto, general chairman; and W. K. McKee, Winnipeg, vice general chairman. Standing: J. Inglis, Medicine Hat, assistant general chairman for western lines; G. Cochran, London, assistant general chairman for eastern lines; R. Gauthier, St. Theresa, Que., assistant general chairman for eastern lines.

Took The Wrong Way Home!

In the wee hours of Friday morning two men came to grief with their car on the footpath leading from the hospital to Second street east.

They endeavored to drive from the top of the hill and drove the car between the fence of the R. Bell residence and the electric light pole to get on to the pathway. The pathway proved too steep and too narrow for the car with the result that the machine got on too steep an angle and fell on its side approximately twenty five yards down the hill.

No serious damage was done to either the occupants or the car. The latter was righted early Friday morning and with the aid of Jim Wilkie and a gang of helpers was driven down the path slowly and this time very surely.

Wrestling At Bellevue This Saturday

Professional heavyweight wrestling comes to the Bellevue arena on Saturday night at 8 o'clock. Jim Wright, the 250 pound badman from California, will again try to handle his opponent as he did earlier this month but this time he will have the Swedish Angel, one of the most ferocious looking men to appear in the squared circle in the Pass to-date.

A good preliminary heavyweight bout has also been lined up.

Mrs. Twells Writes From Port Kells

The Journal acknowledges with thanks renewal subscription received this morning from Mrs. W. C. Twells, of Port Kells, B. C. In her letter she states that it is now six years since she and her family moved to B. C. from Coleman. Only one issue of The Journal has reached her this month due to train schedule interruption and the one that did reach her contained the news item that she and the Everett Bulman family were in danger of flood. She states they are alright as there is no flood in Port Kells but they know all about the flood as it was at Barnston Island and that she sent pies and cakes to the men working on the dikes. The dikes eventually collapsed and the livestock from that area is being pastured at Port Kells. Cars and trucks were also brought off the Island via Port Kells which possesses a wharf.

Mrs. Wm. Hopkins returned home this week from Vancouver where she had spent several weeks vacation.

I WANT TO KNOW...

Does a Mother need insurance?

Unless a husband and father is very well-to-do his wife should have her own insurance policy. If a mother dies when there are no funds available to pay a housekeeper, the home may be broken up and the children put out for adoption or sent to relatives. The answer is, "Yes, a mother needs life insurance."

Make an appointment to talk things over with a Mutual Life of Canada representative today.

Rev. A. S. Dewdney, M.A., B.D.
At the early Communion this Sunday the members of the Ladies' Guild will make their corporate Communion. This is an opportunity at the end of the season for the members to offer their work to God and ask His blessing upon it, and to pledge a new year together their loyalty and devotion to Christ and His Church. It is hoped that all members of the Guild will make a special effort to be present.

The Altar flowers last Sunday were given by Mrs. Howard Davis and Mr. L. S. Richards in memory of their father, John Charles Richard. Also by Marilyn Slugg in memory of her father, Fred Slugg. May they rest in peace.

St. Alban's Sunday school picnic will be held at the lake on Friday, July 2nd. All children are asked to be at the Parish Hall by 10.30 and to bring sandwiches. Other refreshments will be provided. It will be appreciated if any parents who can help transport the children by car will give their names to the Vicar or Mrs. Penney as soon as possible.

The Lambeth Conference of Bishops of the Anglican Communion from all over the world will be held in England from July 1 to August 8th. The opening service will be held in Canterbury Cathedral on July 1. This service will be broadcast over the CBC network on July 7-8 a.m. Mountain Standard time. All Anglicans should endeavor to tune into this broadcast.

Welcome meeting for Lieut. Burkholder will be held on Friday, July 2nd.

People shop where they are invited—that's why it pays to advertise.

EVERYBODY'S BUSINESS

It's only human to hope for our heart's desires to come true in the future. But too much anticipation can be a hindrance to success and happiness. Carried to extremes, it can even produce a feeling of frustration.

For one thing, "living in the future" blinds us to the many enjoyable things in life that each day brings. Too easily we overlook the deep and real satisfactions to be found in a lovely day, a good friend, a tasty meal, a job well done.

Excess anticipation also leads to perpetual daydreaming. And daydreaming is fatal to achievement. Worse, it encourages the possibility of bitter disappointments.

However, I do believe one should always be hopeful—and whenever possible take practical steps to make any reasonable dream or ambition come true.

The most practical way to provide for your own and your family's future is through life insurance. It offers a safeguard against unforeseen emergencies, and helps make your dreams of comfortable retirement and other plans to come true.

Rev. A.S. Dewdney Inducted As Vicar Of Coleman-Blairmore Mission

Lethbridge And Pincher Creek Ministers Take Part In Service; Large Congregation In Attendance.

An impressive service was held in St. Luke's church, Blairmore, on Wednesday evening, June 16, when Ven. Archdeacon Axon of Calgary inducted Rev. A. S. Dewdney as Vicar of the Coleman-Blairmore Mission. Assisting at the service were Rev. L. L. Grant of St. Augustine's church, Lethbridge, the Rural Dean, Rev. C. Clarke from Pincher Creek, and Rev. E. A. Justice of Lethbridge. Archdeacon Middleton was unable to come from Cardston on account of bad roads. The church was filled with a large congregation including many from Coleman. The Choir assisted in the singing, with Mrs. F. Millett at the organ.

The procession of choir and clergy entered during the opening hymn. After the opening prayers, Rev. C. Clarke read the letters of License from the Bishop of Calgary, and Archdeacon Axon in the name of the Bishop inducted the new Vicar, Mr. F. Graham and Mr. H. M. Bennett as Churchwardens presented the Vicar with the keys of the church.

After a hymn the Archdeacon and the Vicar proceeded to the Font, the Prayer Desk, the Lectern, the Pulpit, and the Altar. At each of these places a portion of Scripture was read and an exhortation was given declaring the duty of the minister in baptizing, saying public prayer, reading and study of the Scriptures, preaching God's word, and in diligently and frequently celebrating the holy Communion of the Body and Blood of Christ. To each of these exhortations the minister responded, "I will so do, the Lord being my helper." Then the Archdeacon turned to the congregation and reminded them of their duty to contribute to their minister's support, and to help him forward in all his duties. To this the people responded in like manner.

The Rev. L. L. Grant preached the sermon. He reminded the congregation of the qualities they had the right to expect in their new priest, and warned them that they were not called to a way of self-indulgence. The great need of the church, and indeed of the world, is discipline. He pointed out the example of other religious bodies which call for and received great sacrifices from their members. There were too many members of the Church of England who were "four-wheel christians", seen in church only when they were baptised, married, and buried—the "hatch, match, despatch" variety. He urged them to accept the discipline of the church. Discipline comes from "disciple", a follower. Our discipline is the following of our leader, Christ.

After the service the whole congregation adjourned to the Parish hall. The Ladies' Guild of St. Luke's church provided refreshments, and a very pleasant social hour was enjoyed.

REPAIRS

When people's cars get old and worn
And then begin to toddle,
They go somewhere and trade them in
And get the latest model.
Now I have very often thought
That when my joints are achy,
And when my hair has all turned grey
And knees are rather shaky,
And when the onward march of time
Has left me rather feeble,
How nice 't would be, to find a firm
That deals in worn-out people.
How nice 't would be; when feet give out
Or we have damaged livers,
If we could go and buy new parts
Just like we do for flivvers.
And when my form is bent with age
And gets to looking shoddy,
How nice 't would be to trade it in
And get a brand new body.
Contributed by J. Baldwin.
New Westminster.

IT WAS A LAKE, SO HELP ME!

Motorists travelling between the Pass and the prairie on Saturday and Sunday had the experience of driving through a fair sized lake. In fact the body of water was so large that it was with much hesitancy that the drivers nosed their cars into the water, kept their fingers crossed and hoped for the best.

The body of water was located at approximately the middle of the long stretch of highway east of Cowley. It would measure about 100 yards long and was eighteen inches to two feet deep. In fact it was so deep that the water was washing away from either side of the car in the same manner as a ship.

A number of motorists met with grief midway through the water and as usual the Public Works Department had made no provision to help the unfortunate motorist or bring equipment into play to drain the water. It was only late Sunday afternoon that equipment was put to work to drain the highway.

At least two Coleman cars are known to have met grief in the water. One had water get into the oil and had to get a tow to a garage for car service.

Normal Train Schedules Expected July 8

According to a news item in the Nelson Daily News this week C.P.R. officials in the B.C. city anticipate that train schedules through the Kettle Valley will be back to normal by July 8.

Progress is being made on the breaks on the tracks in the Fernie-Cranbrook area which is responsible for delaying the train ten hours or more daily into the Crows Nest Pass.

John Douglas Hillcrest Oldtimer Passed Away

John Douglas of Hillcrest, passed away suddenly in a local hospital on Saturday. He was 73 years of age, having been born in Douglas Lenarkshire, Scotland, on Sept. 4, 1874.

The late Mr. Douglas had moved from Scotland to Illinois, U.S.A., in 1904 returning in 1905. In 1920 he moved to Canada and resided in Hillcrest where he worked in the Hillcrest Mohawk mine until his retirement in

1946. He was a member of the United Church of Canada and belonged to the Masonic lodge (Summit lodge). In 1897 he was married to Jane Sloan of Carlisle, Scotland, who predeceased him in December, 1944.

Surviving are four sons, Robert of Scotland, Samuel of Vancouver, Harry of Coleman, and Matthew of Hillcrest; one daughter, Mrs. Mary Makin of Calgary; one step-brother, George Porteous of Cardston and two sisters, Mrs. Grace Lothian of Lethbridge and Mrs. Janet Dawson of Edmonton.

Funeral services were held in Hillcrest on Wednesday at 5 pm.

known as the "Meteor." It will be exclusive to the Canadian market and will be distributed by the Mercury and Lincoln dealers across the Dominion. In addition to the two-door

Custom sedan shown above, the Meteor line will include the Custom four-door sedan and Club Coupe, as well as a deluxe series consisting of two-door and four-door sedans, Club Coupe and Business Coupe.

UNDERSTANDING= MODERATION

Understanding comes to us

when we see things through the other fellow's eyes . . .

when we listen through the other fellow's ears . . .

when we consider the other fellow's point of view at all times.

It's the key to happy living together. For it leads us

to weigh our words and shape our actions for the common good.

Happily a Canadian characteristic, it's this understanding

which leads us to choose the path of moderation in all things . . .

moderation in our thinking, moderation in our spending . . .

moderation in our pleasure. For understanding makes us realize

that moderation benefits not only our own selves, but our

families, our communities and all of Canada.

Men who Think of Tomorrow
Practice Moderation Today!

THE HOUSE OF SEAGRAM

Shaughnessy Trims Dominoes In Doubleheader

Locals Travelled to Lethbridge Sunday and Lost Both Games to Provincial Champions, 4-3 and 11-6.

Shaughnessy Cadillacs, 1947 senior men's fastball champions, were on the right side of the score in each instance in a double header exhibition series with Coleman Dominoes at Lethbridge ball diamond on Sunday afternoon. The scores

were 4-3 and 11-6.

Big Bill Skura, Coleman's ace hurler, was again in peak form and only allowed the champs one hit in nine innings. A wild fielding throw in the last frame proved the winning break for Shaughnessy.

Neither team scored up until the fourth inning when Shaughnessy scored three runs on Quam, Foychuk and Watson. Kovack brought Coleman into the game with a run in the 5th to be followed by Skura in the 6th with a home run and Hlueka with a triple and eventual run to tie the game up. In the

final frame the overthrow with a Shaughnessy player on base proved the winning break for the champions.

Batteries: Coleman, Skura to Hlueka.

Shaughnessy: Toth; Foychuk (6) to Branch.

Lineups — Coleman: Hlueka, Ganiro, Hudz, Skura, Kovack, Antenenko, Girhney, Nimcan.

Shaughnessy: Scray, Quam, Smerch, Foychuk, Watson, McFoy, Branch, Fenley, Kerluk.

The second game of the series was rained out in the last of the eighth. Coleman was trailing 11-6. Errors proved to be the losing factor in this game as well, for both Kovack, and later McDonald, on the mound for Coleman, chucked good ball.

Seray, for Shaughnessy started the scoring, in the first; Seray, Quam, McFoy, Branch, Watson scored in the third; Seray, Smerch, scored in the fourth; Quam, Branch and Watson scored in the last.

For Coleman Kovack again brought in the first run, Girhney came in in the fourth, Skura in the sixth, and Hudz, Skura, and Kuz, finished off the game. Batteries—Coleman: Kovack, McDonald to Hlueka.

Shaughnessy: Smerch to Branch.

Lineups — Coleman: Hlueka, Ganiro, Hudz, Skura, Kuz, Kovack, Girhney, McDonald (Nimcan) Kwasy.

Shaughnessy: Seray, Quam, Smerch, Foychuk, Black, Kerluk, McFoy, Branch, Watson.

Blairmore Won Eleven Inning Thriller

Loss Dropped Cubs Into Second Place; Loose Fielding Caused Downfall Locals.

By virtue of a 7-6 victory in an eleven inning thriller played at the local ball diamond on Sunday afternoon, Blairmore C.C.'s gained undisputed leadership in the C.N.F. Baseball league. The loss placed Coleman in second place, one game behind the leaders.

The match produced a mound duel between Harry Draper, of Blairmore, and "Stump" Kimoto, of the Cubs. Both pitchers went the full route in a match that was the most thrilling of the current season. For Kimoto the loss marked his first defeat of the season. It was a heart-breaker to lose as three of the seven runs charged against him were unearned, as his teammates displayed their loosest fielding of the season.

Cubs Win Exhibition Against Hillcrest

Coleman Cubs journeyed to Hillcrest on Sunday afternoon to play a return exhibition match. It was an eight inning affair which resulted in an 8-4 victory for the Cubs.

Mocco, on the mound for the Cubs, scored his first victory of the season. Orr, pitching for Hillcrest, held the locals well in check until the seventh inning when some lusty power-hitting scored three runs for the winners.

Hillcrest rallied in the third to score four runs but proved ineffective at bat from that point on to remain "winless" for the season.

WEDDINGS

GODFREY — HUGHSON

The Coleman United church was the scene of a quiet and pretty wedding, when Lillian, youngest daughter of Mrs. C. Hughson and the late Mr. Charles Hughson, of Blairmore, became the bride of Willie, son of Mr. and Mrs. Godfrey, of Coleman, on Saturday, June 12, at 10 a.m.

The bride wore a brown suit with matching accessories and a corsage of roses. Miss Irene Perozak, of Blairmore, acted as bridesmaid, and Mr. Oyekie, of Lundbreck, supported the groom.

A reception was held at the home of the groom's parents, with only the closest relatives present.

The happy couple spent their honeymoon at Lethbridge and will reside in Coleman where the groom is employed.

POCH — ASHMORE

The marriage took place at Hillcrest United church of Miss Faye Adeline Ashmore, daughter of Mr. and Mrs. Edward Ashmore, of Hillcrest, to Mr. Joseph, Charles Poch, of Frank. Rev. Dr. Magowan officiated.

Attendants were Miss Henriette Elaine Poch, of Frank, and Mr. Peter Victor Bias, of Blairmore.

RAYMOND — MATTHEWS

The marriage of Miss Dorothy Matthews, of Calgary, to Mr. John Raymond, of Coleman, took place at the St. Paul's

United church manse, Coleman, on Monday, June 14 with the Rev. Dr. R. Magowan officiating. Attendants were Mr. and Mrs. Gordon McDonald, of Coleman. The newly weds will reside in Coleman where the groom is employed.

WHITE — SHEVELS

The marriage took place at Bellevue United church on Saturday, June 12, of Miss Doreen Lois Shevels, daughter of Mr. and Mrs. Robert Shevels, of Bellevue, to Mr. William Alfred White, son of Mr. and Mrs. Alfred White, of Hillcrest. Rev. Dr. R. Magowan officiated.

Attendants were Miss Betty Ann White and Mr. William Ironmonger.

HOSPITAL NOTES

Mrs. John Gillespie, who had been admitted to hospital last Thursday, was allowed home on Monday morning.

2-year-old Maureen Lowe was admitted to hospital on Monday noon.

Mrs. Grace France was admitted to hospital on Friday.

Ken, Snowdon was admitted to hospital at the weekend suffering from an old knee injury.

Board to Follow

(Continued from Page 1)

In accordance with a ruling placed on the books at the start of the present term which states that executive members who miss three consecutive executive meetings without proper cause be dropped from the executive six members had their names deleted from the executive. The following members will be asked to replace them; A. Montalbetti, O. Celi, J. Allan Jr.,

P. DeGroot, J. Malanchuk and the union will be asked to appoint one of its members who might evince interest in Board of Trade work.

The scarcity of housing in Coleman was discussed and the committee appointed last month to survey the situation offered to bring in Mr. R. G. Lillie of Central Mortgage & Housing Assoc. to address Board membership at a regular meeting. The offer was accepted and an attempt will be made to have Mr. Lillie visit Coleman the latter part of this week.

This Weekend We Will Feature . . .

Coleman School Board

(Continued from Page 1)

hot weather finally arrives
council authorized that slashing
of trees near dump be
done.

Chairman Geo. Evans and
Trustees Dave Holly and O.
Bomben, of the school board,
were present to advocate that
council give serious consider-
ation towards the establish-
ment of a sewage system for
main and second streets. They
stated that the Board would
be compelled to spend \$1200
or more this summer on a
septic tank and cesspools in
the school grounds which
were already honeycombed
with cesspools. They stated
the Board was prepared to
give a grant of \$5,000 to coun-
cil if the latter would estab-
lish the system.

Discussion revealed that all
hotels were experiencing sewer-
age difficulties as well as sev-
eral businessmen. Council

agreed to bring in the provin-
cial sanitary engineer for con-
sultation and contact parties
most interested for their re-
action to the proposal and
possible financial help.

Mr. R. Mitchell, cemeteries
ground keeper, will be offered
\$50 per month on a three
months season. He had re-
fused the offer of \$300 per
month on a six months sea-
son. Persons desiring Mr.
Mitchell's services in caring
for individual graves have to
arrange with him personally.

A letter was received from
International regarding the
beautification of Flumerfelt
Park. The company congrat-
ulated the council for its in-
terest in the park.

Mr. George F. Kofoury, of
Blairmore, sought council's
permission to start a Self-Ser-
vice Food Market in the Lom-
bardi property on main street.
Council stated he must first
secure his provincial license.

Speedsters and reckless
drivers within town were con-
demned by council. Police
Chief Antle was ordered to
prosecute all guilty of these
practices.

Town workmen will be sent
to the yard of Mrs. Hannah
Parker to clear out the mud
brought there by recent high
water.

Permission was granted the
Coleman Lions Club to spon-
sor a tag day this Saturday
in aid of the British Columbia
Flood Emergency Fund.

The Androshek home on
second street has now been
vacated. Council will offer
rental of the home to those
parties who were first to make
application.

Coleman Light & Water Co.
is faced with heavy expense
to provide water and light
services to homes at present
being constructed on the Flat.
It was stated that stricter
supervision must be given
building permits in order that
future home builders can be
informed whether or not they
will be supplied with water
and light services, depending
on how near to water mains
and power lines their future
home may be.

Capt. and Mrs. T. Smith To Leave Wednesday

Captain and Mrs. T. Smith,
the Salvation Army officers
of the local Corps are to fare-
well on Sunday, June 27, and
will leave Wednesday for their
new appointment to Wetaski-
win, Alberta. They will be
succeeded by Lieut. Burkbold-
er who is at present stationed
at Wetaskiwin, and Lieut.

Chapman from Dawson Creek,
B.C. These officers will arrive
in Coleman to take charge on
July 2nd.

Captain Smith states that
their three and half years of
service in Coleman have been
happy years. He wishes to
thank the many friends and
comrades of the Salvation
Army for their support of the
local Corps. He says that
while in Coleman all that he
has undertaken to do has been
with the intent that individ-

uals be helped in any way ne-
cessary and that souls be won
into the kingdom of God.

CARD OF THANKS

We wish to express our sin-
cere thanks to all our friends
who helped make the surprise
party in honor of our 10th
wedding anniversary a real
success. We also express our
thanks for the lovely gifts we
received.
John and Mary
Vrskovy.

FRACTURES

GENERAL SIGNS AND SYMPTOMS OF FRACTURE

1. Pain at or near the seat of fracture.
2. Loss of power in the limb.
3. Swelling about the seat of fracture.
4. Deformity of the limb. The limb assumes an unnatural position, and is mis-shapen at the seat of fracture
5. Irregularity of the bone. If the bone is close to the skin the fracture may be felt.

GENERAL RULES FOR TREATMENT OF FRACTURE

1. Attend to the fracture on the spot. No matter how crowded the thoroughfare, or how short the distance to a more convenient or comfortable place, no attempt must be made to move the patient until the limb has been rendered as immovable as practicable by splints or other means of restraint, unless life is in danger from some other cause.
2. When haemorrhage accompanies a fracture it must be attended to first, and the wound covered by a clean dressing.
3. Steady and support the injured limb so that its further movement on the part of either the patient or the bystanders is prevented.
4. With great care and without using force place the limb in as natural a position as possible. The scope of the First-Aider in the treatment of fractures is not necessarily to set the fracture accurately, but to maintain the broken ends in a fixed position so that they shall not cause further injury to the tissues around them.
5. Apply splints, bandages and slings when necessary. The splints must be firm, and long enough to keep the joints immediately above and below the fractured bone at rest. Ample width is very desirable in a splint. A splint may be improvised from a broom or brush handle, piece of wood, paper firmly folded, or, in fact, anything that is firm, long and wide enough. When these are not available, the body itself may be used as a splint, and the upper limbs may be fixed in various ways to it. The lower limbs may be fastened to one another. A general method for dealing with any fracture of the upper limb is carefully to remove the coat if possible; straighten the limb by gentle and steady extension; bend the elbow and lay the limb against the chest with the hand just touching the opposite shoulder. The hand may be fixed in this position by a bandage looped around the wrist and tied around the neck, taking care that there is no constriction at the wrist. The limb is then bound firmly to the chest by a broad bandage or similar method, the coat replaced and buttoned over the fractured limb. This method may also be used for fractures of the shoulder-blade and collar-bone. In the lower limb, if no splinting facilities are available, extend the broken limb and tie the ankles and feet together with a figure-8 bandage. If padding is available, pad between the legs. Fasten the knees together with a broad bandage. Bandage above and below the fracture.

SCENES OF ONTARIO'S COSTLIEST BUSH FIRES

About to leap the highway near Longlac, Ont., forest fire flames lick skyward among thick clouds of smoke as far as the eye can see. The driver speeds along road in effort to beat the flames before they devour the last few yards of bush along the road edge.

Lightning started eight forest fires in the Mississauga and Cheltenham areas of Northern Ontario. Above, firefighters are seen taking buckets and axes into the Ashgrove incense.

Over 2,000 firefighters were used to stop the onrush of disastrous fires. Here flames leap through a tinder-dry Teck Township bush.

TEATIME FOR SOPHIE—"Red Hot Mama" Sophie Tucker, in London, Eng., to play in London variety, was accorded an unusual honor when she was guest at a civic reception at the Mansion House, City of London. Here the veteran variety star pours tea for Sir Frederick Wells, London's Lord Mayor, at the Mansion House.

LAST CZAR'S SISTER ARRIVES IN CANADA—Grand Duchess Olga Alexandrovna Kulikovsky, sister of the last czar of Russia, who arrived in this country recently from Europe, is "very, very happy to be in Canada." With her came her husband, her two sons and two grandchildren. They plan to farm in Canada.

DYNAMITE BLAST AWAKENS MOTHER—An explosion outside her bedroom showered Mrs. C. Lalonde, Sturgeon Falls, Ont., with glass. Her brother, L. Freshette, is shown examining the damage. Dynamite is said by police to have been thrown at the window of Mrs. Cecile Lalonde, 26, seen with her children, Liette and Denise. Police charged Henri Poisson, 26, with attempted murder.

ARMY TOOK OVER—Premier Johnson, (above), of British Columbia, empowered Col. T. E. Snow, B.C. Army Commander, to call out all troops in the province to combat the recent flood situation in province.

KILLED IN CRASH—Horace Kennedy of Mount Albert, Ont., was killed and his wife shaken up when their car and a light truck were in collision on No. 11 highway near Bradford, Ont. Mr. Kennedy, shown with his wife and a young friend, was killed instantly. His body was at the roadside.

FIELD TRIAL TEST LISTED FOR BASENJI—"Eric", local member of the Basenji line of dogdom, which was used as hunters by the Pharaohs of Egypt, went to Saskatchewan by air for training in field trials against pointers and setters. The Basenji is shown with Mrs. Roberta Jenkins of Oak Ridge, his former owner.

TWO CHILDREN BURN TO DEATH—Chicken coop was being used by children as playhouse. Sandra and Paul Harris, four, who is shown at right, with Billy Harris, seven, and Sharon Harris, died in the fire which destroyed the tiny building at Guelph, Ontario.

FLYER HURLS BOXCARS 13 INJURED—Thirteen persons were injured when the C.N.R. passenger train from Toronto smashed into three boxcars in the C.N.R. yard, at Niagara Falls, Ont., and sent the wreckage of the boxcars hurtling against several parked automobiles. The majority of those most seriously hurt were said to have been sitting in the parked autos waiting for the train. Cause of the accident is believed to be an open switch in the railway yard. Three boxcars, on a siding, were hit by the locomotive of the train and all three were derailed, officials said. The boxcars landed on the parked automobiles. Here an aerial photo shows the wrecked boxcars against the Niagara Falls station.

OUR COMPLETE SHORT STORY—

Williams Philosophy

By BASCOM H. BIGGERS III

There were some people in Crawfordville who said it was because Old Jim Hawkins had put a curse on William that the date of his death was what it was. But it was the most superstitious who said it. Most everybody knew it was just a coincidence that Old Jim said what he did at the town picnic just before what happened to William. Anyway, it taught Old Jim a lesson.

Everybody in Crawfordville was at the picnic that day, because it was an annual occasion. The women spread specially packed lunches on long picnic tables in the park while the men held horseshoe matches and the children ran races and played games for prizes. After lunch, where neighbors got a taste of each others' cooking, everybody stretched out and rested up before the main event of the day, the baseball game.

"Aren't you gonna stay for the game, William," asked Thomas, the postmaster.

William and Sue and the children were gathering up their things. "Like to," said William, dusting the grass off his pants, "but Sue here's not feeling too well and I've got a picture at home I've got to finish painting before tomorrow."

"That's too bad," said Thomas, "but if you are getting money for the painting I guess you better finish it." William grinned, knowing Thomas was thinking that he didn't make much money which was true.

"Yeah," said William, "every little bit counts." "If you don't mind, William," said Harry, his neighbor's son, "I'll ride on with you. Dad and the family are gonna stay for the game, but I got some stuff to do at home."

"Sure, Harry," said William. "Come on." As they left and people looked after them, Thomas shook his head and smiled. "That William don't make much, but he sure is a good fellow."

"Hmnm," muttered Old Jim. "He won't ever amount to much. Got no ambition. Got plenty of brains but what's he ever done with them?"

CHANGE of LIFE?

Are you going through the functional middle age period peculiar to women and men? Do you feel tired, nervous, irritable, tired? Then so try Lydia E. Pinkham's Vegetable Compound. It's the best remedy for all the common ailments of women. It's the best remedy for all the common ailments of men. It's the best remedy for all the common ailments of children.

ECZEMA

You'll find quick relief for the itching, burning, feeling of eczema when you use Dr. Chase's Ointment.

Lemony Luscious Ice-Box Cake

Combine 1/2 c. melted shortening and 1 c. light corn syrup. Beat in 2 eggs. Sift together 2 c. sifted all-purpose flour, 4 tps. Magic Baking Powder, 1/2 tsp. salt; add alternately with 3/4 c. milk and 1 tps. vanilla extract to first mixture stirring well after each addition. Bake in 9x9 inch greased 9 layer pans in 350°F. oven 25-30 min. Cool, bake each layer longways making 4 layers.

Lemon Filling: Blend 4 1/2 tbs. flour with 1/2 c. water to make smooth paste. Add 1/2 c. water and 1/2 c. corn syrup. Cook, stirring constantly until thickened. Beat egg yolks, gradually add cooked mixture to it. Return to heat; cook 1 min. Stir in 1 tps. lemon rind, 1/2 c. juice. Spread between layers and on top of cake. Chill. Top with white icing.

Barely makes enough to live painting pictures."

"Maybe," said Thomas. "But they're lucky they're happy. He's got a philosophy he lives by."

"What's that?" grunted Old Jim. "Why, William says it's important to never worry about things. Just take life easy and accept things as they come, doing the best you can, and then you'll be happy. He says he reckons he could make a lot of money if he tried real hard, but then he wouldn't be happy. He says they've got enough and no worries. And doggone if they don't seem the happiest people in Crawfordville!"

"Sure, he's happy," said Old Jim. "Why shouldn't he be? He's got all that 'wooded ground with his house on it and nothing to worry about. But just let something bad happen and he wouldn't be so darn happy. Just let some problem face him and that pretty philosophy of his would fall through. Then you'd see him worry. I'd just like to see him face something important."

"Maybe you're right," said Thomas. "But I don't think so."

"Come on, everybody," someone shouted. "Let's get on with the ball game."

The men rose, stretched lazily, complaining that they had eaten too much, and headed for the diamond where a couple of eager players were already warming up.

It was only the middle of the second inning when William's car came tearing down the road and turned into the park. The car jerked to a halt and Harry jumped out and came racing across the park to the diamond. His eyes were wide and he was out of breath when he reached the crowd.

"Harry, whatever is the matter?" asked his mother.

"It's William's house," he said. "When we got there it was burnt to the ground—right down to the ground! There's nothing there but a pile of black ashes. Everything they had in the house burnt up. It's terrible."

A groan passed through the crowd for William was well liked, even if some of them didn't approve of what they considered his lazy ways.

"Whatever caused it?" asked Thomas.

"Don't know," said Harry. "William says he guesses it must've been lightning. Gee, it's terrible!"

"Nothing we can do now," said Thomas. "But I reckon we can go out and offer our sympathies."

Peeps were already moving to ward their cars. A sickening feeling hit them with the news of the disaster and all the pleasure was gone out of the game. There was nothing to do but go out to William's house and see what was left of it, and see what they could do.

"Well, Old Jim," said Thomas as they climbed into the car. "Looks like you'll get to see how William faces a real problem. Guess you'll see how good or how bad his philosophy is."

"I certainly hadn't counted on anything like this when I was talking," said Old Jim. "I'm sure sorry. But I still say you'll see William won't be so easy about life now."

They were among the first to get to William's place. Thomas had hoped that the fire might not be as bad as Harry had said, but it was. His heart sank when he saw the smoldering ruins and the charred trees that had stood near the house. William and Sue were nowhere in sight, but the children were sitting in the front yard playing with the cat.

"Where's your Dad?" asked Thomas.

"Oh, he and Mom are over on the back of the property," said little William. "Here they come now."

Thomas and Old Jim walked toward William and Sue, followed by the other people who were arriving. Thomas was a little doubtful about William's attitude now himself. He was afraid Old Jim might be right.

"How nice of you all to come," said Sue. "There's no place to entertain you, but it certainly is comforting to see you."

"It certainly is," said William, smiling. "We've just been over on the site for the new house. We're going to put it on the back of the property. There's a perfect site there. And you know what? We'll have a beautiful moonlight walk without even getting off our property."

"Well, I'll swear!" said Old Jim. "You're right, Thomas. You can't keep a man down who can stand before the ruins of his home and talk about moonlight walks. William, I'm hereby offering my help in building you a new house."

That Interesting Swather

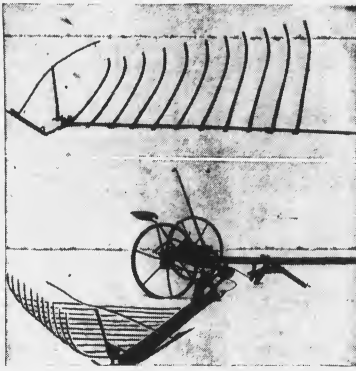

By V. A. POPE
OPPORTUNITIES for doing a farming operation by a different method which may offer a saving in time, energy, or money always produce considerable interest. The swathing attachment on the mower illustrated may appeal to many readers as giving promise of such an opportunity.

Following the appearance of this illustration, which was described as having been photographed at the Dominion Experimental Station, Fredericton, N.B., the Station received a great number of letters enquiring about the machine. Impressed with

length of the bar depends, of course, on the length of the cutter bar on the machine with which it is to be used.

The teeth are fastened to the bar about 7 inches from centre to centre with the longest tooth about 16 inches from the inside shoe at the heel of the cutter bar. The teeth vary in length from 38 inches for the outside teeth to 96 inches for the inside.

The best means of fastening the attachment to the mower will depend on the type of mower used, but it is a simple assembly and the best manner of bolting it on should prove easy to determine.

Interest appears to have revived in the possibilities of swathers. The upper illustration here shows the attachment from the front as it looks before it is fitted to the mower. In the lower photograph it is shown attached and ready to go. The long, curved fingers or teeth are made of steel and guide the cut hay into a compact swath.

The interest that was shown, S. A. Hilton, superintendent of the Station, sent to the Family Herald the two illustrations of the swather which appear here, together with complete information concerning its origin and construction.

The attachment has been used at the Station mostly for cutting green clover for grass silage or for cutting grain which was too badly lodged to cut with a binder, and it has done those jobs satisfactorily. It has not been used much for haying work, but Mr. Hilton suggests that it might save the use of a side delivery rake in good hay-making weather.

Originally made by the Frost and Wood Company some years ago, the swather is no longer made commercially, but is simple enough so that the basic idea can be duplicated quite easily by a good blacksmith.

The swather is rather like a pea harrow, and is essentially a set of long metal fingers, curved up like the long bar which runs the length of the cutter bar of the mower and move the hay, as it is cut, over toward the heel of the cutter bar. This leaves it lying in a row along the line of the cut.

The swather bar is 1/2 inch round steel fastened to a steel shoe 1 1/2 by 1 1/2 inches. The teeth are strips of 1 inch by 3-16 inch steel, and the long bar which runs the length of the cutter bar is 2 inch by 1/2 inch steel. The teeth are each fastened to this bar by two bolts, and the

EXPERIMENT WITH DRY ICE RAIN AT ROSETOWN

ROSETOWN, Sask.—Charlie (Dusty) Dowrie broke up a cloud with dry ice, and brought a light shower in the adjoining Harris-Sovereign area.

His work was the culmination of a number of secret experiments earlier this year. He said that conditions were not ideal, the cloud bank being too high, and the ground temperature warm enough in rising to evaporate some of the rain. It was one of the first if not the first such experiment in Saskatchewan.

NO HOG CHOLERA

OTTAWA—Agriculture Minister Gardiner told the Commons that there were no outbreaks of hog cholera in Canada in the past year. He spoke during study of agriculture estimates.

ITCH CHECKED in a dilly—or Money Back

PEGGY

PEGGY, 13, is the star of the play, "The Part of Susan," which is being played at the Dominion Theatre.

THE PART OF SUSAN, which is being played at the Dominion Theatre, is a play by Carolyn Wells.

THANKS FOR GIVING ME THE LEAD—I'LL DO MY BEST!

AND THAT'S THE WHOLE STORY—AS PSYCHOLOGY TEACHER, WHAT DO YOU MAKE OF IT?

PSYCHOLOGY WAS NOTHING TO DO WITH IT—THEY'RE GIRLS!

A python, 30 feet long, has about 690 ribs.

Uranium Discovered In Saskatchewan

Prospector Reports Largest Radio-Active Area Ever Discovered

PRINCE ALBERT, Sask. — The uranium strike in the Lac la Ronge area, 150 miles northeast of here, is the "largest radio-active area ever discovered" and may have the effect of "moving Great Bear lake 1,000 miles south," according to William Richardson, co-discoverer of the strike.

Mr. Richardson and his partner Len McArthur, both of Toronto, came across their find of the strategic mineral within a week of starting prospecting in the area and report they have discovered 17 radio-active outcroppings along a seven-mile front.

This is the basis for Mr. Richardson's claim that this is the largest strike on record. The Eldorado operations on Great Bear lake cover a total area of only one-quarter square mile, in which there are several rich radio-active veins from two to three inches wide.

Perhaps the most important feature of the new discovery is the fact that it is so accessible to transportation. A newly completed provincial highway leads from Prince Albert to the settlement of Lac Ronge and from there barges have easy access across Lac la Ronge to the site of the strike on the north end of the lake along the Montreal river, 32 miles from the settlement.

Gum arabic is used to suspend insoluble compounds in liquids.

Estimate Alberta Gas Supply For Ninety Years

Ninety years' gas reserves on basis of present use exist in the Province of Alberta, the newly published report on gas reserves of the Prairie Provinces indicates. The report was prepared by Dr. George S. Hume, chief of the Dominion Geological Survey and A. Ignatieff of the Dominion Bureau of Mines.

It is expected to serve as the basis for determining whether or not sufficient gas reserves are available to warrant export of gas from the province.

Reserves of Alberta gas are placed at 3,618 billion cu. ft. of which 1,433 billions are classed as proved and 2,185 billion cu. ft. as probable. Present Alberta gas consumption is about 40 billion cu. ft. per annum.

FUND AT \$16,619

WINNIPEG.—The memorial fund established to aid the widow of Canon John Turner, Anglican missionary who died after a shooting accident near his Arctic mission last year, now stands at \$16,619, Dr. H. M. Speechly of Winnipeg, a trustee said.

DIDN'T I TELL YOU?
You get **50% MORE** Jam or Jelly with **CERTO**

AND RESULTS ARE SURE!

Sounds almost unbelievable—until you know the reasons why. Certo is nothing but "fruit pectin"—the natural substance in fruit which makes jams "jam" and jellies "jell." It's extracted from fruits in which it is most plentiful for better, quicker, easier jam and jelly making.

- 1. Short boil**—That's why, when you use Certo, you don't have to "boil down" your fruit to make it set. A one-to-two-minute full, rolling boil is enough for jams... a half-minute-to-a-minute for jellies.
- 2. Extra yield**—The short Certo boil saves all the precious fruit juice which, in long boiling, goes off in steam. You get an extra yield of 50% more jam or jelly.
- 3. Saves time, work**—What a lot of time and work it saves. Tool the old long-boil way you'd have to boil and stir many times as long.
- 4. Fresh fruit flavour**—colour—With Certo you use fruit at its peak of flavor and colour and not the under-ripe fruit used in long-boil recipes. The Certo boil is too short to spoil this lovely taste and colour. They stay right in your jam or jelly.
- 5. No failures**—You'll have no failures if you follow exactly the recipes provided with Certo. Different fruits need different handling, so there's a separate tested recipe for each one.

TAKE THE GUESSWORK OUT OF JAM AND JELLY-MAKING
GET CERTO AT YOUR GROCER'S

A Product of General Foods

THIS IS YOUR CERTO RECIPE BOOK!

A pound of jam or jelly made with Certo contains no more sugar than a pound made the old, long-boil way.

LOCAL NEWS

Mr. and Mrs. Melusi, of Fernie, are the guests of their daughter, Mrs. N. Milo, and Mr. Milo.

The Reverend John Sullivan, professor of Philosophy at St. Dunstan's University, Charlottetown, is visiting at the Catholic Rectory.

Mr. Louis Vasek is a patient in Holy Cross hospital, having undergone an operation for an arm injury received 17 months ago. Friends will be glad to know he is progressing very well.

Mr. and Mrs. James Lote, of Blairmore, were visiting at Calgary at the weekend. They have only recently returned from Vancouver where they visited relatives, a sister of Mr. Lote being, very seriously ill. While in the west coast city they met a few former Colemantites.

Mrs. Joe DeLuca returned home on Sunday evening from Calgary where she had been called two weeks ago owing to the serious illness of her husband who is a patient in the Belcher hospital. Mrs. Bomben, Mr. DeLuca's mother, is still in the city.

Mayor Frank Aboussafy was a Calgary and Lethbridge business visitor the early part of the week.

Miss Betty Hillary, nurse-in-training at Holy Cross hospital, Calgary, is spending a vacation with her parents, Mr. and Mrs. J. Hillary.

Births

Born: To Mr. and Mrs. John Kinnear Jr. on Monday, June 21, at Newsome's Nursing Home a son, John William.

Born: To Mr. and Mrs. Albin Panek at Newsome's Nursing Home on Monday, June 21, a daughter.

Born: To Mr. and Mrs. Laddie Krish at Newsome's Nursing Home on Thursday, June 17, a daughter, Donna Kay.

Born: To Mr. and Mrs. Alois Kubica at Newsome's Nursing Home on Wednesday, June 9, a son, Eugene Lee.

Born: To Mr. and Mrs. Steve Panek at Newsome's Nursing Home on Thursday, May 13, a son, Stephen Anthony.

RAGS WANTED—Must be soft and clean. Will pay 10c per pound.

FAREWELL PARTY

A farewell party in honor of Mrs. Fred Weir was held at the home of her sister, Mrs. Steve Bencko, last Friday evening with fifteen friends present. Mrs. Bencko and sister, Mrs. Rudy Enzol, of Blairmore, sponsored the party.

A dainty lunch was served and a social evening enjoyed. During the evening Mrs. Weir was presented with a gift for which she expressed her thanks.

Mrs. Weir and children will leave at the end of June for Wetaskiwin where Mr. Weir has purchased a grocery store. Mr.

Weir will arrive in Coleman this week and motor with his family to their new home. They contemplate purchasing a home in Wetaskiwin.

Mrs. Weir has been a Coleman resident for 25 years, having first arrived in town with her parents and two sisters.

To Whom It May Concern

Mrs. Gloria Golinowsky having left my bed and board on Saturday, June 19, I will no longer be responsible for any debts incurred by her.

Stanley Golinowsky.
